QUESTIONS AND ANSWERS

Invitation to Bid: ITB # 16-11-01

Description: Fresno/Aspen Street Stormwater Drainage Improvement Project

1. Reference: The note on plan sheet #6 of 12 regarding an adjustment as needed of an existing 20" WVWA waterline. This adjustment does not have a bid item on the bid form but the other waterline relocations do. Will this work if necessary be done as a change order? If not will an additional line item be added to the bid form?

Answer:

The 20" waterline adjustment will not be performed because it has been determined that this utility is not in conflict with our proposed storm drain system.
